Experienced coder and full stack developer with several years of coding and freelance experience. Proficient in backend development and currently upskilling in data science.

EDUCATION

Master of Computer Application
Guru Ghasidas Vishwavidyalaya
09/2021 - Present   *Bilaspur, Chhattisgarh*

B.Sc. Computer Science
Atal Bihari Vajpayee Vishwavidyalaya
08/2017 - 07/2020   *Bilaspur, Chhattisgarh*

PERSONAL PROJECTS

Student Performance Analysis - (B.Sc. 3rd Semester Academic Project)

- Learned - C#, ASP.NET, Google Pie Chart, SMTP, Authentication
- Conducted a team-based project in the final semester of my BSc program, titled "Student Performance Analysis," to evaluate student performance through survey questions
- Collaborated with team members to design and implement the project. Gained experience in survey design and data analysis
- Successfully presented the project and received positive feedback from faculty members

Quiz Game - (Personal Project)

- Learned - AJAX, Servlet, JSP
- Developed a personal project to enhance proficiency in Java and its associated technologies
- Acquired knowledge of connecting the front-end and back-end using AJAX. Successfully implemented the project using Servlets, JSPs and Oracle 11g database
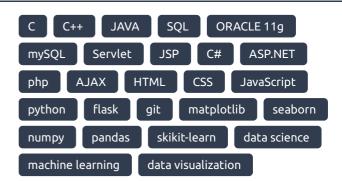

Student Record Management - (Personal Project)

- Learned - Java AWT & Java Swings
- Developed a Java-based desktop application using AWT and Swings that efficiently stores and manages all academic records of students
- Implemented functionalities for calculating student marks and determining their promotion status to the next semester

KBC Clone - (Personal Project)

- Learned - C Graphics
- Developed a KBC clone utilizing C++ and C graphics, delivering an interface that closely resembled the popular quiz show
- Built in lifelines for the user, while maintaining the same scoring system as the original game

SKILLS

C · C++ · JAVA · SQL · ORACLE 11g · mySQL · Servlet · JSP · C# · ASP.NET · php · AJAX · HTML · CSS · JavaScript · python · flask · git · matplotlib · seaborn · numpy · pandas · skikit-learn · data science · machine learning · data visualization

ACHIEVEMENTS

Code Bid in EQUILIBRIO'19 🔗
got 3rd position

HackerRank - Java, HackerRank - C 🔗
5 star java coder in Hackerrank, 5 star C coder in Hackerrank

Intercollege Vollyball Competition
our team is 3rd runner up in intercollege vollyball competition in 2019

TRAINING

D'Souza Computer Education (08/2017 - 12/2017) 🔗
C, C++, Data Structure using C & C++ Trainee

D'Souza Computer Education (07/2018 - 11/2018) 🔗
Java(Core & Advance), SQL & PLSQL Trainee

CERTIFICATES

Front End Development HTML by Great Learning 🔗

Front End Development CSS by Great Learning 🔗

Introduction to R by Great Learning 🔗

Data Science Foundation by Great Learning 🔗

C - Basic , C - Intermediate by HackerRank 🔗
